

The Company Behind EMS Manager®, FIRE Manager® and Zanager®

EMS Manager, FIRE Manager and Zanager are all accessible via a mobile app version. When visiting your system on a smartphone, your mobile browser will automatically be detected and will load the mobile version of your system for you.

iPhone

1. Launch Safari.
2. Touch the address bar and enter in your system URL (e.g. emsmanager.net/your servicename).
3. Log in as usual; you can optionally click on “Remember Me” to have your login information stored.
4. To save a shortcut to your system on your iPhone, you can bookmark it by clicking on  on Safari and selecting “Bookmark.”
5. To save an icon to your Home Screen, select “Add to Home Screen.” An icon will now appear on your Home Screen giving you one-click access to your EMS or FIRE Manager system.

Android

1. Launch Browser.
2. Touch the address bar and enter in your system URL (e.g. emsmanager.net/your servicename).
3. Login as usual; you can optionally click on “Remember Me” to have your login information stored.
4. To bookmark the site, click on the Bookmark Icon and then click on “Add” for the icon of your system.
5. To save an icon to your Home Screen, long-press the bookmark you’ve already saved for your system.
6. Select “Add shortcut to Home.”
